## Valentines Day

It's more than a box of chocolates!

Many women head to the lingerie or chocolate store to stock up on goodies for their sweeties for Valentines Day. This year it's time to remind your clients that beauty and sex appeal start with their clothes on! Don't let your clients go bare this year with the same old hairstyle; offer them a sleek, sexy Whirl-a-Style updo that will wow their date yet take very little time to create.

All Whirl-a-Style Products can be used to create various salon updo hairstyles for holiday parties, weddings, special occasions or any stylish look. Each professional Whirl-a-Style Hairstyling Product has a special slit down the center through which hair is conveniently pulled, rolled and then styled as desired. By taking a simple bun or twist, you can quickly create unlimited hairstyles.

Not familiar with Whirl-a-Style? We'd be glad to teach you some of the hottest new hairstyles to create on your clients! We offer step-by-step illustrations that are easy to follow. This Valentines Day, offer your clients something they can not do themselves, a sexy upstyle that will last all night long.

1. Divide hair into two equal sections vertically down the center of the head.
2. Take the first section and pull hair through the slit of a Whirl-a-Style hairstyler. Holding the styler out the side and up.
3. Start rolling the hair in toward the center of the head.
4. Right before the last roll, close styler and roll one more time in the same direction.
5. The French Twist should land right in the middle of the head. Pin to hold in place.
6. Take the other section and pull through the slit of the Whirl-a-Style. Again, holding the styler out to the side and up.
7. Roll the styler towards the center of the back of the head.
8. Right before the last roll close Whirl-a-Style and roll once more in the same direction.
9. The second French Twist should land in the center of the back of the head, lined up

Also, at the end of the night when your client is ready to pull their hair down, Whirl-a-Style naturally curls hair - leaving a full, sexy wave.

All Whirl-a-Style Products help professional hair designers create inspired beauty, positive self-image and creativity for their salon clients. This one-of-a-kind series of hairstyling tools transcends all boundaries of professional hair design artistry! Plus, Whirl-a-Style hair design devices can be used for both your salon services as well as to provide a unique extra take-home retail product.

Experience it once. Never go without it again! For more information regarding Whirl-a-Style services and products for your salon, call 800-553-5004, email [info@WhirlaStyle.com](mailto:info@WhirlaStyle.com) or visit their website at: [www.WhirlaStyle.com](http://www.WhirlaStyle.com).
